

Your **trusted**
foodservice partner

Our family has been milling oats in Kilmacthomas, Co. Waterford for over 240 years, milling locally grown oats and creating wholesome, natural foods.

Authenticity

The land here is ideal for growing oats and with their generations of experience, our farmers know exactly when to harvest it for the perfect yield. That wonderful bounty of nature, field-fresh oats, brought to our Mill at harvest time.

Provenance

Our commitment to quality sourcing and traditional milling techniques, handed down through seven generations, that helps give Flahavan's porridge its distinctive creamy taste and texture.

Our story is simple - it's about family and place and about one single cereal - oats. Timeless, natural, wholesome and nourishing and most of all, a food we're sure you'll enjoy.
